DC Green Bank Products and Audiences
We’re With You Each Step of the Way

Structured Offerings

- Building owners and operators
- Small businesses
- Nonprofit and community organizations
DC Green Bank Completed and Approved Deals

Solar Deployment ☀
- DC Green Bank has now approved over $3.4 million of construction financing for solar for all installations across Wards 4, 7, and 8 in affordable housing communities
- Once completed, the projects will reduce nearly 2,000 tons of CO2-equivalent yearly, and save residents $7 million in bills throughout the life of the project
- Jobs created for construction and roof repair

Stormwater Abatement ⛲
- Ease flooding, control runoff, and lower water bills
- $800,000 line of credit
- Clean jobs created during the construction and maintenance phases
DC Green Bank is Ready to Support a Green Recovery

By engaging with small and large developers, financing partners, nonprofits, and other partner organizations, the DC Green Bank team has made significant progress to identify deals in line with our mission and our values.

- **30+** Active leads across our priority sectors
- **1+** Billion dollars of potential overall financing identified
- **70+** Million dollars of potential DC Green Bank financing for identified opportunities

- United Way of the National Capital Area
- Washington Interfaith Network (WIN)
All District residents can take the pledge to reduce their energy use and we provide those that sign up with tips on easy ways to save and lower their energy bill.

Last year we engaged over 2,400 District residents that signed the pledge to reduce energy.
Energy Saving Tips

HELP FIGHT CLIMATE CHANGE! REDUCE ENERGY USE DC!

Easy Energy Saving Tips:

- Unplug chargers and electronics when not in use
- Wash clothes in cold water
- Turn off lights when you leave a room
- Use fans to stay cool
- Use power strips to easily turn off multiple electronics
- Run a full dishwasher instead of handwashing
- Switch to LED lightbulbs

Learn how to use energy more efficiently, take steps to reduce energy use at your home or business, and save money while helping fight climate change.

Special Guest Remarks

Gilbert Campbell, Co-Founder & Managing Partner, Volt Energy
ABOUT VOLT ENERGY

Volt Energy is a national minority-owned solar energy firm that develops, finances, and builds utility-scale, distributed generation, and community solar projects. Since 2010, Volt Energy has positioned itself as a leader in the development of solar projects that provide safe, clean, and affordable solar energy solutions for an array of public and private sector clients including: Accenture, Pepco/Exelon, The Cheesecake Factory, The U.S. Army, Subaru, District of Columbia Government, Wake Forest University, and Howard University. Volt Energy’s Co-Founder and CEO, Gilbert Campbell, is a board member at the Solar Energy Industry Association (SEIA) and at The American Association of Blacks in Energy (AABE).
**Notable Accomplishments**

**White House Champions of Change**

Volt Energy was recognized as a White House Champions of Change for Climate Equity during President Obama’s Administration.

**Roundtable Discussion with Speaker Pelosi & Congressman McEachin**

Volt Energy participated in an infrastructure and environmental roundtable discussion with Speaker Nancy Pelosi and Congressman Donald McEachin.

**Volt Energy CEO Elected to Executive Committee of Solar Energy Industries Association Board.**

Gilbert Campbell will assist the association’s efforts to advocate for clean energy legislation, solar affordability and diversity, equity and inclusion in the industry.

**House Committee on Energy & Commerce.**

Co-Founder Gilbert Campbell testified before the House Committee on Energy & Commerce for a hearing on “Clean Energy Infrastructure and the Workforce to Build It.”
