DYRS PERSONNEL	14	-	1

The Department of Corrections organized the findings in the report into 13 action areas. While much of this work is underway, there will be enhanced monitoring and accountability.

Enhancements include:

-  Calling in Experts to Provide Updated Training on the Proper Use of PPE
-  Daily Showers for Persons In Isolation
-  Acquisition of More Tablets – More Entertainment and Education; Less Crowding Around Televisions
-  Improvements in Providing Free, Private Telephonic Access to Counsel
-  Calling in Experts for Hygiene Advice and Deep Cleaning of Facility

The DOC has requested 30 medical volunteers from the DC Medical Reserve Corps to assist with screening staff and inmates for symptoms.

Director Clinton Lacey is the mayoral appointed executive lead of the effort to continually monitor and improve the execution of next steps to **prevent and respond to the presence of COVID-19 in DOC's facilities**. He will lead a small team of health and operational experts from DYRS, DBH, and DOC who will review, scrutinize, and, when appropriate, recommend changes to the policies and practices in place at the DC Jail and Saint Elizabeths.

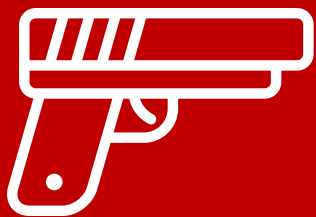

Each Friday, DOC and Saint Elizabeths will produce an update to the status of recommendations adopted from the court's report, as well as other recommendations created by these peer reviews.

Last month, the city's sole commercial federal firearms licensee (FFL) abruptly ceased accepting any new business. MPD and the Office of the Deputy Mayor for Public Safety and Justice immediately started working on options to meet residents' Second Amendment requirements, while also ensuring public safety.

This Mayor's Order delegates to MPD the authority to operate as the District's FFL while there is no other commercial FFL operating in the city.

Mayor's Order Enforcement

9

- MPD has taken reports for 23 commercial establishments for alleged violations and have forwarded those reports to DCRA and/or ABRA for subsequent investigations and follow-up. ABRA and DCRA are following up with verbal warnings, written warnings, and site visits.
- Officers continue to use a script when they encounter a group of people who are not properly social distancing.
- Officers have PPE to use in accordance with the Mayor's Order and when interacting with someone who may be displaying COVID-19 symptoms or when they must provide critical aid (e.g. CPR).
- Fabric, washable face masks are being distributed to members this week.

VIOLENT CRIME

Violent crime in the last 30 days is **down 3%** compared to the previous 30 days.

- In comparison to this same time period last year, **violent crime is down 14%**.

Unfortunately, gun crimes are unchanged.

PROPERTY CRIME

Property crime in the last 30 days is **down 39%** compared to the previous 30 days.

- In comparison to this same time period last year, **property crime is down 31%**.

Victims can still file for **temporary protection orders** with the DC Courts

Victims in need of help should contact the **DC Victim Hotline** (1-844-4HELPDC), by phone or text 24/7

- Services include crisis housing, counseling, legal advocacy, and medical forensic care

Victims who are afraid or unable to talk to a 911 operator can **text 911**
