PHASE TWO ADJUSTMENTS: Mayor’s Order on Sports and Recreation
High-contact sports are prohibited.

- Basketball
- Boxing
- Football
- Hockey
- Lacrosse
- Martial arts
- Rugby
- Soccer
- Wrestling

Universities or professional leagues may continue to organize and administer practices and competitions for their athletes who engage in high-contact sports, pursuant to a health and safety plan approved by its accrediting or governing body.
High school extra-curricular sports activities and competitions are suspended for DC Public Schools, public charter schools, private schools, and parochial schools.

Recreation centers and sports clubs must also suspend physical sports and organized athletic activities (including practices, clinics, and competitions) for high school-aged athletes. This applies not only to high-contact sports, but other sports and physical activities as well.
Children and teens who are middle school-aged and younger may continue to participate in organized drills and clinics for high-contact sports, provided:

- the athletes are cohorted in groups of no more than 12
- and the activities do not involve actual physical contact with one another
For all grades, physical education classes must not involve activities where students might come within six feet of one another.
Residents may continue to use DPR fields for individual exercise or casual, non-league, non-high-contact games and activities, provided they adhere to guidance relating to social distancing.

The Department of Parks and Recreation will **stop issuing permits** for organized sports and team play on DPR fields.

Any organization holding an existing DPR permit for sports involving physical contact may only use the permit to conduct no-contact drills and workouts, for children younger than high school or for adults.

With Pandemic Unemployment Assistance (PUA) set to end at the end of the year, DC Government is providing a $1,200 ONE-TIME STIMULUS PAYMENT for DC residents currently receiving PUA.
Who is eligible to receive the payment?

DC residents who were eligible for, and filed for, Pandemic Unemployment Assistance as of November 30 (meaning you were not eligible for or receiving traditional unemployment insurance).

PUA covers individuals who are not eligible for traditional UI benefits, including:

- self-employed individuals
- those seeking part-time employment
- individuals lacking sufficient work history
- independent contractors
- gig economy workers
- those who have exhausted their benefit eligibility under both traditional UI and Pandemic Emergency Unemployment Compensation
The $1,200 stimulus payment will benefit approximately 20,000 Washingtonians.
RESTAURANT BRIDGE FUND APPLICATIONS OPEN TODAY

What types of establishments are eligible?

- Full-service restaurants
- Fast food restaurants
- Bars and taverns
- Wineries, breweries and distilleries
- Bakeries, cafes, delicatessens, and coffee shops
- Vending trucks or carts, food trucks, caterers, food courts, and cafeterias

What can the funds be used for?

- General operational expenses (rent/mortgage/docking expense, payroll, insurance, fuel for mobile vendors, and/or utilities)
- Expenses incurred related to winterization or COVID-19 preparation
